

Installing matrix-synapse on pypy

```
sudo apt install virtualenv
virtualenv -p ./pypy3 ~/synapse/env
source ~/synapse/env/bin/activate
pip install --upgrade pip
pip install --upgrade setuptools
sudo apt install libjpeg-dev libxslt-dev libxml2-dev
postgresql-server-dev-all
pip install matrix-synapse[all]
```

Currently, this is working. However, adding rooms is causing issues but only with some rooms. The error generated looks like this.

```
2019-02-17 18:15:11,331 - synapse.access.http.8008 - 233 - INFO - GET-5 - 192.168.1.254 -
8008 - Received request: GET /_matrix/client/r0/groups/world/profile

```

If I switch to a regular version of python to add the room and then switch back to pypy, I can talk to the room just fine.

There's a
